The Behavioral Neuroscience has changed its name to the “Behavioral and Integrative Neuroscience” Program. This change was made to more accurately reflect the research that is performed within the program. The global goal of the research in the program is to understand how the central nervous system encodes life experiences and translates this information into behavior. Many of its faculty study adaptations that occur in the brain stemming from exposure to a variety of stimuli including viruses and drugs of abuse and how these adaptations translate into maladaptive behaviors.

This research integrates numerous levels of analyses to address these questions, including sophisticated behavior approaches, immunology, virology, electrophysiology, voltammetry, pharmacology, genetics, transcranial magnetic stimulation, and functional brain imaging. Because of this multifaceted and integrative approach to addressing hypotheses, this new name, Behavioral and Integrative Neuroscience, accurately defines the research program of its faculty, postdoctoral scholars and graduate students.

8 Psychology and Neuroscience graduate students are this year’s recipients of the Dashiell Dissertation Startup Awards. The Dashiell Dissertation Startup Award honors John Frederick Dashiell, founder of the Department of Psychology and Neuroscience, and is intended to support scientific work by assisting with research expenses. Congratulations to Shannon Blakey (Clinical), Benjamin Buck (Clinical), Jenna Clark (Social), Matthew Cohen (Clinical), Adam Hoffman (Developmental), Suzannah Isgett (Social), Stacy Lin (Clinical), and Deirdre Sackett (Behavioral)!
Welcome New Staff!

Kaitlin Blakemore joined the Department as our new Student Services Manager. She earned her B.A.s in Political Science and History from the University of Cincinnati and completed her M.A. in Human Rights and Technology at New York University. She lives in Durham with her fantastically handsome cat, Stanley—named for Stanley from The Office. Kaitlin is an avid runner and fitness junkie, a New York Rangers fan, and also enjoys live music, attending the theater, and hiking. Welcome, Kaitlin!

News, Continued.

Dr. Sylvia Fitting, Assistant Professor of Behavioral and Integrative Neuroscience, is the recipient of a 2016 National Institutes of Health R21 grant. The Exploratory/Developmental Research Grant Award (R21) is intended to encourage exploratory/developmental research by providing support for the early and conceptual stages of project development. Dr. Fitting received a total award of over $400,00 over two years for her project, “Investigation of Endocannabinoid Medicated Neuroprotection in Models of NeuroAIDS.”

Dr. Margaret Sheridan, Assistant Professor of Clinical Psychology, is the recipient of a 2016 National Institutes of Health R01 subcontract grant. Dr. Sheridan received a total award of over $200,000 over four years for her project, “Deprivation and Threat: Dimensions of Early Experience and Neural Development.”

Dr. Mitch Prinstein, Seters Distinguished Professor of Clinical Psychology, is the recipient of a 2016 National Institutes of Health R01 supplemental grant. Dr. Prinstein received a total award of over $600,000 over four years for his project, “Multilevel Biomarkers for Suicidal Behavior: From Interpersonal Stress to Gene Expression in a Longitudinal Study of Adolescent Girls.”

Thanks to everyone who attended our 2nd Annual Ann Rankin Cowan Lecture, made possible and sponsored by Ann Rankin Cowan the Cowan Family Foundation. Dr. Dan Ariely (far right) presented “DisHonesty: The Truth About Lies” on September 16, 2016 to a crowd of over 275 undergraduates, graduate students, postdocs, and faculty. Dr. Ariely is pictured here with Dr. Deborah Jones, Ann Rankin Cowan, and Dr. Daniel Bauer.
