Dr. Enrique Neblett, Associate Professor of Clinical Psychology, is one of 10 faculty members in the 6th Class of Thorp Faculty Engaged Scholars. Thorp Scholars participate in a two-year program sponsored by the Carolina Center for Public Service. Scholars participate in sessions in community settings focused on exemplary university-community partnerships. Dr. Neblett’s project will employ photovoice, focus groups, and in-depth interviews to examine issues of race equity and mental health care disparities for African American children, youth, and families in southeast Raleigh. He is also interested in the use of mobile technology to develop interventions for black youth that may assist in negotiating the negative mental and physical health consequences of individual, institutional, cultural, and structural racism in the community.

Henry Willis, a Clinical Psychology graduate student, is the recipient of a 2016 Robert Wood Johnson Foundation Health Policy Research Scholarship. As part of the 2016 cohort, the Health Policy Research Scholars program enrolls up to 50 diverse doctoral students from multiple disciplines whose research, connections, and leadership will inform and influence policy towards a culture of health.

Dr. Sylvia Fitting, Assistant Professor of Behavioral and Integrative Neuroscience, is the recipient of a 2016 UNC Center for AIDS Research (CFAR) grant. The UNC CFAR Developmental Core provides mentoring support for junior investigators interested in pursuing an HIV research career and $30,000 funding for one year of HIV research. Dr. Fitting received a CFAR grant for her project, “Neuroprotective Potential of Endocannabinoids in a Model of NeuroAIDS.”
On April 13, 2016, Dr. Lyle V. Jones passed away peacefully in his sleep at age 92. He was a long-standing member of the Department of Psychology and Neuroscience and the Thurstone Laboratory at UNC Chapel Hill and was a titan in the field of psychometrics and statistics. He was also one of the kindest and most generous people you will ever meet.

Dr. Jones was born on March 11, 1924 in Grandview, Washington. Dr. Jones began his college experience at Reed College in 1942, but was immediately called into active duty at the U.S. Army Air Corps where he served until 1946. He finished his B.A. and M.A. in Mathematics and Psychology at the University of Washington and received his Ph.D. in Psychology and Statistics from Stanford in 1950. He began teaching at the University of Chicago and moved on to the University of North Carolina in 1957 where he worked with Dr. L.L. Thurstone in the earliest days of the Psychometric Laboratory. He later served as Director of the Thurstone Psychometric Laboratory and as Vice Chancellor and Dean of the Graduate School. Dr. Jones served as managing editor of Psychometrika from 1956-1961, was President of the Psychometric Society from 1962-1963, and President of APA Division 5 from 1963-1964.

At the time of his passing, he was the reigning bridge champion in the retirement community and had taken up table tennis at age 88 because he could no longer play his weekly game of tennis on the court. Dr. Jones was a longtime friend and supporter of the entire field of quantitative psychology and he will be deeply missed.

Our close friend and colleague, Dr. J. Steven Reznick, passed away July 5, 2016 after a three-year battle with ALS. Dr. Reznick was born in Winston-Salem, NC in 1951 and attended R.J. Reynolds High School. He was a proud alumnus of UNC Chapel Hill, receiving his B.A. in 1973. He obtained his M.A. from Wake Forest University in 1975 and his Ph.D. in Developmental Psychology from the University of Colorado Boulder in 1982. He started his academic career as the Research Director of the Harvard Infant Study and served on the faculty of Yale University before returning to Carolina in 1998 as a Professor of Developmental Psychology.

Dr. Reznick’s research focused on infant cognitive development, covering topics such as working memory, attention, and language development. Dr. Reznick was a key developer of two widely-used scientific assessment tools, including the MacArthur-Bates Communicative Development Inventory, a child language assessment tool, and the First-Year Inventory, a tool used to identify infants at-risk for autism spectrum disorder. He held joint appointments at the Center for Developmental Science, the Carolina Institute of Developmental Disabilities, and the Frank Porter Graham Child Development Institute.

He was dedicated to service, founding the Cognitive Development Society, as well as serving as Director of the Developmental Psychology graduate program and Associate Dean for First-Year Seminars and Academic Experiences. Dr. Reznick was an exemplary citizen of the Carolina community and was awarded multiple honors including the C. Know Massey Distinguished Service Award, the Order of the Long Leaf Pine, and the Order of the Golden Fleece.

Dr. Reznick had a lifelong commitment to education, research, and Carolina. He will be sorely missed by the man faculty, students, and staff who knew him—and he leaves behind a legacy of courage and inspiration.
The 2nd Annual Ann Rankin Cowan Lecture, made possible and sponsored by Ann Rankin Cowan and the Cowan Family Foundation, features Dan Ariely, Ph.D., a James B. Duke Professor of Psychology and Behavioral Economics at Duke University.

Dr. Ariely earned his M.A. and Ph.D. in our UNC Cognitive Psychology Program in 1994 and 1996 and earned a second doctoral degree in Business Administration at Duke University.

He’s given several TED Talks, totaling over 8 million views, including: Are We in Control of Our Own Decisions? and Our Buggy Moral Code. Dr. Ariely has also written several books, including Irrationally Yours” and “The (Honest) Truth About Dishonesty.”

Join us Friday, September 16 at 3:30 pm at the Carolina Inn (211 Pittsboro Street, Chapel Hill). Dr. Ariely will present “(Dis)Honesty: The Truth About Lies.” The lecture will last an hour in the Chancellor’s Ballroom and will include a Q&A. Reception to follow.
