5 Psychology majors are the recipients of the 2016 David Bray Peele Award. The Peele Award honors David Bray Peele, who received his Bachelor’s degree from the Department in 1975 and worked with Dr. Mark Waller on his Honor’s thesis. He completed his graduate work at the American University in Washington. After receiving his Ph.D., Dr. Peele returned to North Carolina to work at the Neurotox Division at the Environmental Protection Agency. He used innovative behavioral methods in his research to demonstrate toxic effects in rats. Dr. Peele passed away suddenly in 1990. After his death, his family remembered how his Honors work at UNC Chapel Hill opened so many opportunities for him and decided to establish a fund that would bear his name. The Peele Award supports our undergraduates in psychology and their Honors projects.

The 2016 David Bray Peele Award recipients are Phylicia Currence, Isai Garcia-Baza, Jihane Jadi, Elizabeth Reeder, and Elena Scialabba.

Dr. Ken Bollen, a Immerwahr Distinguished Professor of Quantitative Psychology, is the recipient of a 2016 United States Geological Survey grant. The U.S. Geological Survey’s mission is to provide biological, geologic, topographic, and hydrologic information that contributes to the wise management of the nation’s natural resources and promotes the health, safety, and well-being of the people. Grants assist with this mission to provide impartial information on the health of our ecosystems and environment, natural hazards, natural resources, impacts of climate and land-use change, and the core science systems that help provide timely, relevant, and usable information. Dr. Bollen received a total award of over $270,000 for his project, “Advancing Structural Equation Modeling Methods and their Application to the Natural Sciences.”
Dr. Katie Gates, an Assistant Professor of Quantitative Psychology, is the recipient of a 2016 National Institutes of Health BRAIN Initiative Award. The purpose of the NIH BRAIN Initiative is to fill major gaps in our current knowledge of the brain and provide unprecedented opportunities for exploring how the brain records, processes, uses, stores, and retrieves vast quantities of information, all at the speed of though. Dr. Gates won a $1.1 million award to develop, evaluate, and validate a new analytics-based method for analyzing brain data obtained from an MRI scanner. Her team’s efforts will culminate in a freely available statistical software package to help researchers better understand the underlying mechanisms of human behavior, emotions, and cognition.

Dr. Jessica Cohen, an Assistant Professor of Cognitive Psychology, is the recipient of a 2016 National Institutes of Health R61/R33 subcontract grant with the Kennedy Krieger Institute. These grants are used to support innovative exploratory and development research activities. Dr. Cohen received a total award of over $85,000 for her project, “Physiological Mechanisms of Mindful Movement in Children with ADHD.”

Deirdre Sackett, a graduate student in Behavioral and Integrative Neuroscience, is the recipient of a 2016 National Institutes of Health F31 Predoctoral Fellowship. These fellowships are awarded to graduate students with supervised research training in specific health and health-related areas leading toward the research degree. Deirdre received a total award of over $65,000 over two years for her project, “Neurobiological Investigation of Delay Discounting: Role of Prelimbic Cortex and the Nucleus Accumbens Circuit.”

Shannon Blakey, a graduate student in Clinical Psychology was awarded second place at the Three Minute Thesis Competition at UNC Chapel Hill on Tuesday, November 1, 2016. The Three Minute Thesis is an academic competition that assists current graduate students with fostering effective presentation and communication skills. Participants have just three minutes to explain the breadth and significance of their research project to a non-specialist audience. The first place winner receives $1,000 and travel expenses to represent UNC Chapel Hill at the March 2017 regional competition.

The 2016 first place winner was Patrick Lang, a doctoral student in Cell Biology and Physiology, the second place winner was Shannon Blakey with her project, “The Harm of Just-in-Case: the Paradoxical Effect of Safety Aids on Anxiety,” and the people’s choice award went to Nancy Quick, a doctoral student in Speech and Hearing Sciences.
November has been proclaimed American Indian Heritage Month and is an annual celebration at UNC Chapel Hill. This year’s theme is “Walking in Two Worlds and Preserving American Heritage,” which celebrates and commemorates the rich history, culture, and contributions of American Indians in North Carolina.

North Carolina is home to eight American Indian tribes, enumerated at more than 122,000 people, whose ancestry here dates back more than 12,000 years.

To honor their culture and heritage, the American Indian Center is hosting numerous events, including Cherokee Coffee Hour, Native American Sky Stories at the Morehead Planetarium, a Native Narrative tour through the UNC Visitor’s Center, a Carolina American Indian Roundtable, “Two Spirits” Film Screening in Honor of Transgender Day of Remembrance, and more!

Visit the 2016 American Indian Heritage Month Events Calendar online!
Research Opportunities for Faculty

If you are interested in applying for any of these opportunities, contact Phil Lee, Grants Management Officer, at palee@email.unc.edu.

National Institutes of Health

Health Promotion Among Racial and Ethnic Minority Males
National Institute of Nursing Research
National Institute of Diabetes and Digestive and Kidney Diseases
PA-16-428 (R01)
PA-16-432 (R21)
Application Due Date: Standard due dates apply

Understanding Factors in Infancy and Early Childhood (Birth to 24 months) That Influence Obesity Development (R01)
National Institute of Diabetes and Digestive and Kidney Diseases
National Institute of Child Health and Human Development
Office of Behavioral and Social Sciences Research
National Institute on Minority Health and Health Disparities
PA-16-169
Application Due Date: Standard due dates apply

Methodology and Measurement in the Behavioral and Social Sciences
Office of Behavioral and Social Sciences Research
National Cancer Institute
National Eye Institute
