Dr. Stacey Robinson, a postdoctoral fellow in Behavioral and Integrative Neuroscience, is the recipient of a 2017 National Institute on Alcohol Abuse and Alcoholism fellowship. Dr. Robinson received a total award of over $177,000 over three years for her project, “The Role of Medial Prefrontal Cortex CRF Signaling in Binge-Like Ethanol Intake.” She will investigate how the neuropeptide corticotropin releasing factor (CRF) is altered in the medial prefrontal cortex in an animal model and determine if silencing the activity of these neurons and blocking the activity of CRF receptors will be protective against binge-drinking.

Kathy Do, a graduate student in Developmental Psychology, was named the first UNC Biomedical Research Imaging Center (BRIC) Fellow. The BRIC houses state-of-the-art imaging equipment, directs innovative imaging research programs, and asserts outstanding skill and knowledge in imaging applications. BRIC provides cutting-edge imaging hardware such as PET/MR, PET/CT, MRI, SPECT, Optical Imaging, and Ultrasound. As a BRIC fellow, Kathy will be trained to run the Prisma Scanner, a 3T MR whole body scanner available for use in both human and animal studies.

Dr. Jennifer Arnold, a Professor of Cognitive Psychology, is the recipient of a 2017 National Science Foundation grant. Dr. Arnold received a total award of over $385,000 over three years for her project, “Testing Probability-Based Theories of Pronoun Comprehension.” Findings from this project may help us understand how to communicate better with people from different backgrounds, and how reading experience and education affects spoken language comprehension.
Jennifer Yi, a graduate student in Clinical Psychology, is the recipient of a 2017 National Institutes of Health grant. Jennifer received a total award of over $71,000 over two years for her project, “Working Memory Network Connectivity and Inhibitory Control in Cocaine Use.”

Dr. Kurt Gray, an Associate Professor of Social Psychology, and Dr. Kristen Lindquist, an Assistant Professor of Social Psychology, have been named Associate Editors of the Journal of Experimental Psychology: General. JEP: General publishes articles describing empirical work that bridges the traditional interests of two or more communities of psychology. The journal may include articles on topics including social processes, developmental processes, psychopathology, neuroscience, and computational modeling.

Nathan Burnham, Ronald Kim, and Christina Lebonville, graduate students in Behavioral and Integrative Neuroscience, are the recipients of a 2017 King Research Excellence Award. This award honors the late Dr. Richard King, a Professor of Psychology at Carolina, for his many contributions to our department over the years and recognizes research excellence.

Marketa Burnett, a graduate student in Developmental Psychology, is the recipient of a 2017 Initiative for Minority Excellence (IME) Top-Up Award. The IME at UNC Graduate School focuses on retention and the successful graduate of underrepresented minority graduate students through academic, success, professional training, and community development.

Kesha Hudson and Taylor Thomas, graduate students in Developmental Psychology, are the recipients of the Center for Development’s Carolina Consortium on Human Development (CCHD) Predoctoral Fellowship. The CCHD Predoctoral Program is a fully-funded two-year training program that is designed to facilitate continued diversity of candidates, mentors, institutions, and disciplines. A key mission of the CDS is to provide cutting-edge training opportunities in developmental science that span the career trajectory. The CCHD receives support through a T32 training grant from the National Institute on Child Health and Human Development to support a predoctoral and postdoctoral training program.
