UNC–CH Psychology Ranked Among America’s Best Graduate Schools

U.S. News and World Report recently published online their 2013 rankings to be included in the 2014 Edition of “America’s Best Graduate Schools.” The University of North Carolina at Chapel Hill appears on multiple lists of schools, degree programs, and specialty areas. Business, law, medicine, education, and engineering are the five disciplines U.S. News ranks annually. Periodically, rankings are provided for programs in science, social sciences and humanities, and health. Among this year’s rankings are the UNC–CH Department of Psychology, tied for 12th, and the UNC–CH Developmental Psychology Program, tied for 5th. Additionally, the UNC–CH Clinical Psychology Program was ranked 2nd (last ranked in 2012). To see what other UNC–CH programs made the rankings please click here.

PSYC 101 Instructors Recognized for Interactive Instruction

Dr. Jeannie Loeb and Dr. Beth Jordan were featured in an article published in the UNC–CH College of Arts and Sciences spring magazine. Both were recognized for their efforts to blend online work, class discussion, and games in the introductory course, Psychology 101. The article discusses how this teaching methodology engages students and aids in the retention of information. To read the full publication, please click here. (Photo credited to Donn Young.)
**Dr. Linda Dykstra** was awarded the Nathan B. Eddy Award for 2013. This award was established in memory of one of the pioneers in the field of drug dependence following his death in 1973. The recipient is recognized for their outstanding research that has advanced scientific knowledge of drug dependence. Dr. Dykstra is the 40th recipient of this award since its commencement.

**Dr. Steve Reznick** will be completing his term as Associate Dean on June 30, 2013. He has been granted a Senior Faculty Research and Scholarly Leave as well as a Research and Study Leave for 2013-2014 to facilitate his transition towards more focus, depth, and productivity in his research and teaching. His specific plans include completing several ongoing projects, developing two new courses, and launching several new grants and research projects on various topics including autism spectrum disorder, nutrition, and infant cognitive development.

**Dr. Jeannie Loeb** has been selected to speak at the Last Lecture Ceremony as part of Senior Week. Each year during Senior Week, seniors of all disciplines gather together at Polk Place to enjoy an event known as the “Senior Sendoff and Last Lecture.” For this event, a favorite professor is voted on by many members of the senior class. Senior Class President, Tim Palmer, noted that students praised Dr. Loeb for her ability to connect with them, her expertise in the field of psychology and most importantly, for her good humor! The event will take place on April 16th at 7 PM in Polk Place.

**Dr. Kristen Lindquist and Dr. Kurt Gray** were named as two Rising Stars in psychological science by the Association for Psychological Science (APS). This is a multi-part series published by APS that spotlights professionals in the field whose research and work proves to be driving science into new directions.

**Dr. Barbara Fredrickson** recently wrote an opinion piece that was published in the Sunday New York Times and quickly became the most e-mailed piece in that day's paper. “Your Phone vs. Your Heart” discusses how real positive social contact with others improves our overall health.
Graduate Student News

Daryl Cameron, social student, will join the faculty at the University of Iowa as a tenure-track Assistant Professor next fall.

Jason Kahn, cognitive student, received an NSF grant to support his doctoral dissertation research.

Tanya Vacharkulksemsuk, social student, received a prestigious NSF post-doctoral fellowship to study teamwork processes at UC Berkeley’s Haas School of Business.

Carrie Adair, social student, received a significant grant from the Mind and Life Institute to support her dissertation research. Carrie's research centers on the construct of mindfulness (present moment attention and awareness), affective processes and well-being. This grant will support a randomized control trial to evaluate the role of cultivated mindfulness in daily interpersonal judgments and relationship functioning.
