

Summer School 2018
UNC Department of Psychology
Undergraduate Courses

*For the complete list of undergraduate Psychology courses, please refer to the
[Undergraduate Bulletin*](#)

Maymester (May 16th-June 1st, 2018)

PSYC 222: Learning (3)

Instructor: Dr. Todd Thiele (01M)

Prerequisite: PSYC 101

Topics in conditioning, verbal learning, memory, and problem solving.

PSYC 501: Theoretical, Empirical Perspectives on Personality (3)

Instructor: Dr. Patrick Harrison (01M)

Prerequisite: PSYC 101

An in-depth coverage of the traditional clinically based personality theories of the early 20th century contrasted with more recent empirically based perspectives.

PSYC 503: African American Psychology (3)

Instructor: Dr. Enrique Neblett (01M)

Prerequisites: PSYC 101

This course examines race and culture in the psychological processes and behavior of African Americans.

PSYC 566: Attitude Change (3)

Instructor: Dr. Steven Buzinski (01M)

Prerequisites: PSYC 101 and 260, and 210 or 215.

A detailed consideration of the theoretical issues in attitude and belief change.

Summer Session I (May 16th-June 21st, 2018)

PSYC 101: General Psychology (3)

Instructor: Dr. Jeannie Loeb (001)

A survey of major principles of psychology and an introduction to scientific modes of thought about behavior. Students participate in ongoing psychological research in the department. PSYC 101 is a prerequisite for all psychology courses.

PSYC 210: Statistical Principles of Psychological Research (3)

Instructor: Dr. Neil Mulligan (001)

Prerequisite: PSYC 101

Consideration of the methodological principles underlying psychological research, descriptive and inferential techniques, and the manner by which they may be employed to design psychological experiments and analyze behavioral data. Three lecture hours and one laboratory hour a week.

PSYC 220: Biopsychology (3)

Instructor: Darin Knapp (001)

Prerequisite: PSYC 101

Study of the biological basis of behavior. Emphasis will be placed on human findings and applications.

PSYC 222: Learning (3)

Instructor: Dr. David Eckerman (01W)

Prerequisite: PSYC 101

Topics in conditioning, verbal learning, memory, and problem solving.

PSYC 230: Cognitive Psychology (3)

Instructor: Dr. Neil Mulligan (001)

Prerequisite: PSYC 101

Topics in attention; memory; visual, auditory, and other forms of information processing; decision making; and thinking.

PSYC 242: Introduction to Clinical Psychology* (3)

Instructor: Dr. Jon Abramowitz (001)

Prerequisite: PSYC 101

Overview of clinical psychology: history, scientific basis, and major activities and concerns including assessment, psychotherapy, and other psychological interventions, community psychology, ethics, and professional practice.

**This course will replace the older PSYC 505 (Introduction to Child Psychology) and will NOT count toward the Psychology major if a student has previously taken PSYC 505 for credit.*

PSYC 245: Abnormal Psychology (3)

Instructor: Lillian Reuman (001), Dr. April Harris-Britt (01W)

Prerequisite: PSYC 101

Major forms of behavior disorders in children and adults, with an emphasis on description, causation, and treatment.

PSYC 250: Child Development (3)

Instructor: Dr. Jean-Louis Gariépy (001)

Prerequisite: PSYC 101

Study of the development of social and intellectual behavior in normal children and the processes that underlie this development. Emphasis is typically on theory and research.

PSYC 260: Social Psychology (3)

Instructor: Holly Shablack (001)

Prerequisite: PSYC 101

Introductory survey of experimental social psychology covering attitudes, interpersonal processes, and small groups.

Summer Session II (June 25-July 31st, 2018)

PSYC 101: General Psychology (3)

Instructor: Dr. Ndidi Adeyanju (001)

A survey of major principles of psychology and an introduction to scientific modes of thought about behavior. Students participate in ongoing psychological research in the department. PSYC 101 is a prerequisite for all psychology courses.

PSYC 210: Statistical Principles of Psychological Research (3)

Instructor: Dr. Elizabeth Adams (001)

Prerequisite: PSYC 101

Consideration of the methodological principles underlying psychological research, descriptive and inferential techniques, and the manner by which they may be employed to design psychological experiments and analyze behavioral data. Three lecture hours and one laboratory hour a week.

PSYC 220: Biopsychology (3)

Instructor: Dr. Marsha Penner (01W)

Prerequisite: PSYC 101

Study of the biological basis of behavior. Emphasis will be placed on human findings and applications.

PSYC 222: Learning (3)

Instructor: Dr. Todd Thiele (001)

Prerequisite: PSYC 101

Topics in conditioning, verbal learning, memory, and problem solving.

PSYC 230: Cognitive Psychology (3)

Instructor: Giulia Pancani (001)

Prerequisite: PSYC 101

Topics in attention; memory; visual, auditory, and other forms of information processing; decision making; and thinking.

PSYC 250: Child Development (3)

Instructor: Grant Canipe (001)

Prerequisite: PSYC 101

Study of the development of social and intellectual behavior in normal children and the processes that underlie this development. Emphasis is typically on theory and research.

PSYC 260: Social Psychology (3)

Instructor: Dr. Steve Buzinski (01W)

Prerequisite: PSYC 101

Introductory survey of experimental social psychology covering attitudes, interpersonal processes, and small groups.

PSYC 270: Laboratory Research in Psychology (4)

Instructor: Dr. Elizabeth Adams (001)

Prerequisites: PSYC 101, and 210 or 215

Experiments in biological, behavioral, cognitive, developmental, personality, and social psychology will be discussed, prepared, performed, and reported. One lecture hour and four laboratory hours per week.

PSYC 504: Health Psychology (3)

Instructor: Dr. Jesse Murray McNeil (001)

Prerequisites: PSYC 101 and 245

An in-depth coverage of the theoretical issues and clinical manifestations of psychological responses characteristic of individuals with chronic physical disorders.
