5 of our Psychology and Neuroscience Honors undergraduates are recipients of the 2018 David Bray Peele Award. The Peele Award honors David Bray Peele, who received his Bachelor’s degree in Psychology from the Department in May 1975 and worked with Dr. Mark Waller on his Honor’s Thesis. He completed his graduate work at the American University in Washington. Dr. Peele passed away suddenly in 1990. After his death, his family remembered how his Honors work at UNC Chapel Hill had opened so many opportunities for him and decided to establish a fund that would bear his name. The Peele Award supports our undergraduate students in psychology and their Honors Projects.

This year’s recipients are Natalie Brown, Melissa Burroughs, Claudia Foubert, Atiyah Hamilton, and Angelica Villanueva—congratulations to all students!

Dr. Kenneth Bollen, an Immerwahr Distinguished Professor of Quantitative Psychology, has been selected to receive an Honorary Doctorate from Uppsala University. Uppsala University is a world-class research university in Uppsala, Sweden and was founded in 1477. The title of honorary doctor, doctor honoris causa, is conferred by Uppsala upon academics, primarily from abroad, who have established ties with Swedish academic researchers and who have done outstanding academic work. The honorary doctorate originated at Uppsala in 1839—visit their website to see a list of all individuals holding honorary doctorates. Uppsala University is the European epicenter of development in structural equation modeling and thus it is a significant honor for Dr. Bollen to be recognized through this mechanism. Dr. Bollen will travel to Uppsala in January 2019 for the award ceremony. Congratulations, Dr. Bollen!
Margarett McBride, a graduate student in Developmental Psychology, is the recipient of a Black and Hooded Scholarship Award. The Black and Hooded Scholarship Fund seeks to promote academic excellence and degree attainment by creating an opportunity to alleviate financial burden for incoming Black graduate students. The hope and mission of the organization is that the various scholarships that are awarded will help diversify the realm of higher education, generations of future scholars and professionals, and those to follow. Margarett was selected due to her active undergraduate research career in three research labs, community engagement internships, and her leadership in student organizations, including the National Council of Negro Women. Her lab experiences focused on well-being, community violence exposure, puberty, perceptions of gender and race, and representation in the media.

4 Behavioral and Integrative Neuroscience graduate students are the recipient of 2018 King Research Excellence Awards. This award recognizes the late Dr. Richard King, a Professor of Psychology at UNC Chapel Hill, for his many contributions to our Department over the years. This award recognizes research excellence. Congratulations to Michel Companion, Rachel Haake, Douglas Hermes, and Jacqueline Paniccia.

Mian-Li Ong, a graduate student in Clinical Psychology, is a recipient of the American Psychological Association (APA) Citizen Psychologist Presidential Citation as a Student Affiliate. The Citizen Psychologist President Initiative recognizes APA member psychologists and student affiliates who are exceptional in serving as leaders in the community, contributing to improve the lives of all through continued engagement in significant activities such as public service, volunteerism, board membership, and other strategic roles beyond the day-to-day work of one’s career, and bringing psychological science and expertise to improve community well-being locally, nationally, and globally. Congratulations, Mian-Li!

Christina Lebonville, a graduate student in Behavioral and Integrative Neuroscience, is a 2018 recipient of a UNC Graduate School Graduate Student Transportation Grant. The Graduate Student Transportation Grant assists graduate students with travel costs to a regional, national, or international academic conference or professional society meeting for the purpose of presenting their research. Christina received the maximum amount in support of her travel to the Pavlovian Society’s 2018 Annual Meeting in Iowa City, Iowa, where she presented her work, “The Role of Hippocampal Outputs in Context-Heroin Condition Immune Modulation.”

10 of our Psychology and Neuroscience undergraduates are Fall 2018 initiates of the Alpha of North Carolina Chapter of Phi Beta Kappa. Phi Beta Kappa is one of the oldest and most distinguished of all collegiate honorary societies. Membership is a recognition of academic excellence achieved during the completion of a liberal arts and sciences undergraduate education. Phi Beta Kappa objectives include intellectual honesty and tolerance, a broad range of intellectual interests, and a lifelong commitment to the pursuit of learning. Congratulations to our Fall 2018 inductees: Nicole Ashburn, Madeline Bailey, Jamie Decicco, Angelica Ford, Cody Staples, Evan Thompson, Yunfei Wang, Sylvia Ward, Jessica Whalen, and Allyson Yelton.
Please join us for our 4th Annual Ann Rankin Cowan Lecture on Friday, November 2 at 3:00 PM in the FedEx Global Center’s Nelson Mandela Auditorium (301 S. Pittsboro Street).

This year’s speaker is Charles A. Nelson, III, Ph.D., a renowned neuroscientist who studies the effects of early experience on brain and behavioral development. He is well-known for his work on the Bucharest Early Intervention Project, studying the development of orphans who have suffered extreme neglect, and co-authored a book, *Romania’s Abandoned Children*. With the support of the Bill and Melinda Gates Foundation and the National Institutes of Health, Dr. Nelson has international projects in Bangladesh, Romania, Brazil, and Pakistan.

Experience is the engine that drives much of post-natal brain development. When children are deprived of key experiences, brain and behavioral development can be derailed. His lecture will explore an egregious form of deprivation: being raised in large, state-run institutions. Dr. Nelson will share findings from several domains, including cognitive development, social-emotional development, psychopathology, brain development, and stress physiology.

Please join us on Friday, November 2 at 3:00 in FedEx for the lecture and reception. This event is free and open to the public, thanks to generous sponsorship from the Cowan Family Foundation.

**Reznick Grant for PSYC Majors**

The *J. Steven Reznick Diversity and Psychological Research Grant* is now available to undergraduate Psychology majors! Please encourage your students to apply. Fostering diversity in research is a primary goal of the Department of Psychology and Neuroscience. The Reznick Research Grant will support students from underrepresented backgrounds or those who are interested in conducting research with, or applicable to, populations traditionally underrepresented in research. This grant will be awarded to two recipients in the amount of $2,000 each to use in the Spring 2019 semester. Funds may be used to offset the need for part-time work, to cover the costs of carrying out research, or to attend a professional conference.

Applications should be completed online and are due November 21. Students can visit our website to learn more about how to apply, frequently asked questions, and to learn more about the award.
Psych&NeuroFest
November 9th

We are hosting Psych&NeuroFest in coordination with University Week. This fest is an opportunity for undergraduates to talk with faculty, graduate students, and postdocs about all of the research that is happening our Department. It is held as a research fair during which each lab can highlight their work and/or recruit undergraduate research assistants.

Even if you are not in the market for undergraduate helpers, we want to highlight the breadth of research going on and give our students an eye of what psychology and neuroscience is all about! Postdocs, graduate students, and/or faculty may all be representatives.

The event will be held on **Friday, November 9 from 2:30 – 4:30 PM in Davie’s 1st Floor Lobby.** Contact Dr. Sylvia Fitting to participate. We suggest bringing a poster to the event that spotlights your research or a conference poster. Handouts or sign-up sheets for undergraduate RA recruitment may be useful. Thank you for your participation!
