Gabriella Alvarez, a dual Social-Clinical graduate student, has been selected to participate in one of the Robert Wood Johnson Foundation’s leadership development programs, designed to equip leaders across the country—in every sector and field—to collaborate, break down silos, and use their influence to make communities healthier and more equitable. Gaby was selected for the Health Policy Research Scholars Program, designed for second-year doctoral students from underrepresented populations, Health Policy Research Scholars helps researchers from all fields apply their work to policies that advance equity and health while building a diverse field of leaders who reflect our changing national demographics. The 4-5 year program provides participants with an annual stipend of up to $30,000. As a member of the program’s newest cohort, Gaby will focus on utilizing tools in psychoneuroimmunology and affective neuroscience to study how social contexts affect psychobiological responses to stress. Ultimately, Gaby’s work aims to improve our understanding of how the social world sculpts biology, which will help to reveal the mechanisms underlying socioeconomic and racial health disparities. Congratulations, Gaby!

Dr. Margaret Sheridan, an Assistant Professor of Clinical Psychology, is the recipient of a 2018 R21 grant by the National Institute of Child Health and Human Development. The NICHD R21 Exploratory/Developmental Grant supports exploratory and high-risk projects that fall within the NIMH mission by providing support for the early and conceptual stages of these projects. Dr. Sheridan was awarded over $414,000 over two years for her project, “Using Growth Models to Identify How Trajectories of Infant Brain Development Predict Childhood Behavior and Neural Function.”
Henry Willis, a graduate student in Clinical Psychology, is a 2018 recipient of a grant from the International Obsessive Compulsive Disorder Foundation (IOCDF). IOCDF is committed to finding and promoting the most effective treatment methods for OCD and related disorders. To help achieve these goals, IOCDF awards grants to investigators whose research focuses on the nature, causes, and treatment of OCD and related disorders. Henry received over $25,000 for his project, “Obsessive-Compulsive Symptoms in African American Young Adults: The Roles of Racial Discrimination and Racial Identity.” In his research project, Henry will investigate the role of racial discrimination in the intrusive thoughts experience by African Americans with OCD. He will also examine whether African Americans who hold a sense of belonging and commitment to a larger group defined by their race may be less likely to develop certain OCD symptoms. This project will contribute to what so far has been a limited body of research and may inform future treatment for this population of OCD patients.

Catherine Paquette, a graduate student in Clinical Psychology, is the recipient of a 2018-19 UNC Injury Prevention Research Center (IPRC) Injury and Violence Prevention (IVP) Fellowship. IPRC is a national leader in recruiting and educating the next generation of IVP researchers and practitioners. The goal of the fellowship is to support masters and doctoral students from diverse academic, professional, and demographic backgrounds and to allow them to gain a variety of mentoring and career development opportunities. IVP Fellows work with IPRC-affiliated faculty mentors to identify opportunities to get experience conducting IVP-related research, programming, or policy. The fellowship will provide $3,000 per year to support travel, conference and meeting attendance, and other professional development or training opportunities. Catherine has been selected as a member of the 1st cohort of IVP fellows—congratulations, Catherine!

Three Psychology and Neuroscience graduate students, Ronald Kim (Behavioral and Integrative Neuroscience), Jacqueline Paniccia (Behavioral and Integrative Neuroscience), and Taylor Thomas (Developmental Psychology) are the recipients of the 2018-19 Dashiell Dissertation Start-up Awards. The Dashiell Dissertation Start-up Award honors John Frederick Dashiell, founder of the Department of Psychology and Neuroscience, and is intended to support scientific work by assisting with research expenses. Congratulations to this year’s recipients of the award!

Dr. Sara Algoe, an Associate Professor of Social Psychology, is the recipient of a 2018 grant by the John Templeton Foundation. The Foundation offers grants in support of research and public engage in major areas, including science and the big questions, character virtue development, individual freedom and free markets, exceptional cognitive talent and genius, genetics, and voluntary family planning. The John Templeton Foundation invests in bold ideas from contrarian thinkers—ideas that cross disciplinary boundaries and challenge conventional assumptions with innovative programs that engage the public with these ideas, in an effort to open minds, deepen understanding, and inspire curiosity. Dr. Algoe received a total award of over $1.8 million over three years for her project, “A Scientific Approach to Living in Love: A Framework for the Future.”
Awakening Compassion Workshop

Please join us for a workshop, sponsored by First-Year Seminar Course Enhancement Funds, on **Monday, November 26** from 3:30—5:00 pm in Bingham Hall, Room 103!

Dr. Jane E. Dutton, Kenan Distinguished Visiting Scholar from the University of Michigan Ross School of Business and Department of Psychology, will present “Awakening Compassion in Organizations.”

In this talk, we will engage why we should care about awakening compassion in organizations. In addition, the talk will present a framework for thinking about the compassion process and the obstacles and facilitators of compassion.

While the talk is based on the research on compassion in the field of organizational psychology, it will also touch on practical questions of how do we unlock compassion in our own lives and the lives of others.
