Dr. David Penn, a Linda Wagner Martin Distinguished Professor of Clinical Psychology, is the recipient of the 2019 Psychosis and Schizophrenia Spectrum (PASS) Special Interest Group (SIG) Trailblazer Award. Each year, the PASS-SIG identifies and celebrates a clinical scientist or mental health provider who has made a pioneering impact on the knowledge and treatment of serious mental illness. This trailblazer presents their work during the Association for Behavioral and Cognitive Therapies (ABCT) Annual Convention. Dr. Penn was honored at the 53rd Annual ABCT Convention in Georgia. Congratulations, Dr. Penn!

Dr. Paschal Sheeran, a Professor of Social Psychology, and Dr. David Penn have been named by Clarivate Analytics to its 2019 Highly Cited Researchers List. Clarivate Analytics has assembled an updated roster of more than 3,300 highly cited researchers who have distinguished themselves by publishing a high number of papers that rank in the top 1% most-cited in their respective fields over a 10 year period. The citation analysis identifies the most frequently cited researchers as determined by the extent to which their papers have supported, influenced, inspired, and challenged other researchers around the globe.

Congratulations to Dr. Donald Baucom, Richard Lee Simpson Distinguished Professor of Clinical Psychology, and Dr. Ken Bollen, Immerwahr Distinguished Professor of Quantitative Psychology—each has received a Fall 2019 Graduate Teaching Commendation, which is awarded to Psychology & Neuroscience instructors whose graduate course ratings are within the top 15% among all graduate instructors each semester. Congrats to Dr. Baucom & Dr. Bollen!
17 Psychology and Neuroscience instructors garnered a Departmental Undergraduate Teaching Commendation for Fall 2019! Congratulations to: Steve Buzinski, Vicki Chanon, Kelly Giovanello, Noah Greifer, Desiree Griffin, Tate Halverson, Jason Hannay, William Krenzer, Beth Kurtz-Costes, Jeannie Loeb, Rachel Penton, Sabrina Robertson, Viji Sathy, William Snider, Danielle Weber, Charlie Wiss, and Alexandra Wojda! Departmental Undergraduate Teaching Commendations are awarded to faculty and graduate student instructors in Psychology & Neuroscience whose course rating evaluations for their undergraduate courses are in the top 15-20% of the department with response ratings greater than 50% of the class. Congratulations to all Fall 2019 commendation recipients!

Congratulations to Curtis Smith IV and Natalie Hussein, recipients of the Spring 2020 J. Steven Reznick Diversity and Psychological Research Grants! The Reznick Grant supports students from underrepresented backgrounds or those who are interested in conducting research with, or applicable to, populations traditionally underrepresented in research. The students receiving this $2,000 award may use the funds to offset the need for other part-time work, to cover the costs of carrying out research, and/or to attend a professional conference. This grant honors Dr. Reznick, a close friend and colleague of the Department who made many contributions to enrich diversity in student experiences at UNC.

Curtis Smith IV is a junior Psychology major who is also majoring in Sociology. He has previously worked with Dr. Eric Youngstrom and in Dr. David Penn’s lab. During the Spring semester, he plans to use the support of the Reznick grant funds to explore how psychosocial dynamics such as emotion regulation, peer groups, and personality, can facilitate an adolescent’s re-engagement in criminal behavior, utilizing a publicly-available dataset from a longitudinal study of adolescent offenders. He will pursue this work under the guidance of Dr. Patrick Harrison.

Natalie Hussein is a sophomore Psychology major with a second major in Human Development and Family Studies. Natalie is interested in the associations between ethnic identity, acculturate stress, and family relationships and their impact on mental health among Middle Eastern and North African Americans.

We also would like to congratulate two undergraduates who have received honorable mentions for the J. Steven Reznick Diversity and Psychological Research Grant, Isabel Bravo and Joe Thompson!

Isabel Bravo is a third-year Neuroscience major who works with Dr. Zoe McElligot in the Department of Psychiatry and Dr. Kate Reissner in Psychology & Neuroscience. Her research focuses on a model of opioid use disorder that captures the acute dysphoric symptoms of withdrawal as well as protracted symptoms. She is specifically exploring the effect of oxytocin on opioid withdrawal symptoms in mice.

Joe Thompson is a third-year Psychology major who works in Dr. Keely Muscatell’s Social Neuroscience and Health Lab. Joe’s research focuses on understanding how Black Americans cope with race-related stress, exploring the psychological and physiological consequences of different coping strategies.
The Thurstone Psychometric Lab is pleased to announce the Lyle V. Jones Visiting Academic Scholarship Program. Dr. Jones dedicated more than 50 years of his life to the Thurstone Lab and, upon his passing, provided financial support for quantitatively-oriented researchers and academicians to visit as guests of the Thurstone Lab.

Visitors must be at least 5-years post Ph.D. and can be working in a wide range of settings. Stays can be as short as four weeks and as long as a full academic year. Visitors receive up to $2,000 per month to help offset living expenses.

Visitors will be provided with office space and computing support and the key expectation is that the individual be in some way actively involved in the intellectual community of the Thurstone Lab.

Applications for Fall 2020 are due March 1; applications for Spring 2021 are due August 1. Complete details are available online and specific questions may be directed to Dr. Patrick Curran.
