Dr. Kurt Gray, Associate Professor of Social Psychology, is a recipient of a 2021 University Teaching Award, the William C. Friday/Class of 1986 Award for Excellence in Teaching. This award was created to recognize members of the faculty who have exemplified excellence in inspirational teaching.

Danielle Weber, a graduate student in Clinical Psychology, is a recipient of a 2021 University Teaching Award, the Tanner Award for Excellence in Undergraduate Teaching by a Graduate Teaching Assistant. This award recognizes excellence in inspirational teaching of undergraduate students by graduate teaching assistants.

Dr. Gray and Danielle are among 25 faculty members and graduate students who were named this year’s winners. Each will receive a one-time stipend of $5,000 and framed citation. Congratulations Dr. Gray and Danielle!

Dr. Keely Muscatell, Assistant Professor of Social Psychology, is the recipient of a 2020 American Psychological Association Board of Educational Affairs (BEA) grant. BEA grants are intended to enhance the quality of training for faculty, supervisors, and trainers at the graduate and postgraduate level. With this grant, Dr. Muscatell will host a workshop titled, “Utilizing Inclusive Mentorship Practices to Enhance Equity in Graduate Education in Psychology,” in Spring 2021. This half-day workshop will directly enhance the mentorship skills of faculty members, particularly as it relates to mentoring graduate students from marginalized and underrepresented backgrounds.
Dr. Sikoya Ashburn, postdoctoral fellow in Cognitive Psychology, has been named a Rising Star by Cell Mentor on their 1,000 Inspiring Black Scientists List. Cell Mentor is a dedicated resource for the skill building a successful career in science requires and their 1,000 Inspiring Black Scientists in America List was created to dismantle the myth that outstanding Black scientists make up a small percentage of the scientific community. Congratulations, Dr. Ashburn. [Check out the list and other inspiring Black scientists online.]

28 instructors in Psychology and Neuroscience received a departmental undergraduate teaching commendation for their courses in Fall 2020. These commendations are awarded to faculty and graduate students whose course rating evaluations for their undergraduate courses are in the top 15 to 20% of the Department. Congratulations to all of our Fall 2020 commendation recipients: Ndidi Adeyanju, Donald Baucom, Dan Bauer, Charlotte Boettiger, Marketa Burnett, Steve Buzinski, Vicki Chanon, Sylvia Fitting, Kelly Giovanello, Kurt Gray, Desiree Griffin, Patrick Harrison, Joseph Hopfinger, Chaewon Lee, Rosa Li, Alejandro Martinez, Jeno Millechek, Hannah Morgan, Keely Muscatell, Maku Orleans-Pobee, Rachel Penton, Sabrina Robertson, Shaina Roth, William Snider, Rebecca Stephens, Chris Strauss, Sandra Williams, and Alexandra Wojda!

Congratulations to Megan Hineline and Armani Johnson, the 2021 recipients of the J. Steven Reznick Diversity and Psychological Research Grant! The Reznick grant supports students from underrepresented backgrounds or those who are interested in conducting research with, or applicable to, populations traditionally underrepresented in research. Students receive a $2,000 award to offset the need for other part-time work, cover the costs of carrying out research, and/or to attend a professional conference. This award honors Dr. Reznick, a close friend and colleague in the Department of Psychology and Neuroscience and encourages undergraduates to conduct exemplary research.

Megan Hineline is a fourth-year undergraduate student majoring in Psychology. She previously worked in Dr. Mitch Prinstein’s Peer Relations Lab and is currently pursuing a senior Honors thesis in Dr. Deborah Jones’ lab. Megan is fascinated by the intersections of psychology and technology and is drawn to studying how technology can be utilized to enhance access to, engagement in, and outcomes of traditional therapy treatment options for marginalized populations. Her research, funded by a Reznick grant, will focus on how the presence or absence of a co-parent, as well as the quality of the co-parenting relationship, mediates the outcomes of technology-enhanced behavioral parent training for low-income families.

Armani Johnson is a second-year undergraduate majoring in Psychology. She is interested in how parenting influences social, economic, mental, and developmental outcomes for children and young adults, with a particular emphasis on children raised by single parents and those from lower socioeconomic status backgrounds. Armani will pursue her research this Spring, funded by a Reznick grant, in Dr. Shauna Cooper’s lab.

We also wish a congratulations to five undergraduates who received Honorable Mentions for the J. Steven Reznick grant! Honorable mentions went to Eyram Bossiade, Isabel Bravo, Elizabeth Kim, Erin Robinson, and Margaret Wong!

**Hour of Action**

The Hour of Action in Psychology and Neuroscience began in June 2020 on behalf of the Clinical Program’s Diversity Training Committee and is meant to provide a communal space and resource list to channel our anti-racist and diversity/equity-oriented actions. Historically, HOAs have been Fridays from 4—5 PM, but we are shifting the meeting time effective Spring 2021 to **Fridays from 3—4 PM**.

You will no longer receive a weekly reminder email. Instead, please utilize a recurring Google calendar link that you can integrate into your existing weekly calendar. For Outlook users, a recurring Outlook event was emailed separately. The ongoing list of resources can be found in this Google document. You will receive a monthly reminder of these events with relevant links going forward.

Students, faculty, and staff from across the Department are welcome to attend and we strongly encourage groups dedicated to DEI initiatives to bring their committee work/meetings to the HOA. [Zoom link here](#)!
