## *Department News*

Dr. Kelly Giovanello, Professor of Cognitive Psychology, has been selected as a fellow for the 2021-22 Class of the Academic Leadership Program (ALP) in the Institutes for the Arts and Humanities (IAH). The IAH helps prepare and support current and emerging academic leaders through a yearlong program. Eight fellows are selected annually to engage in a series of activities to help them develop leadership skills, clarify their career commitments, build a leadership network, and extend their contacts to other leaders beyond the University. A flexible use stipend is provided and once appointed, fellows join an expanding community who receive ongoing support from their new network of colleagues.

Dr. Stacey Robinson, a Postdoctoral Fellow in Behavioral & Integrative Neuroscience, is the recipient of a 2021 K99/R00 Pathway to Independence grant by the National Institutes of Health. The purpose of this award is to increase and maintain a strong cohort of new and talented, NIH-supported, independent investigators. Dr. Robinson received a total award of over \$247,000 over two years for her project, "The Role of Central Amygdala Somatostatin Signaling in Binge Ethanol Drinking."

Shveta Parekh, a graduate student in Behavioral and Integrative Neuroscience, received a Ruth L. Kirschstein National Research Service Award (NRSA) from the National Institute on Drug Abuse. The purpose of the NRSA pre-doctoral fellowship award is to enhance the individual's potential to develop into a productive, independent research scientist. Under this fellowship, Shveta will investigate the hippocampal-dependent neural immune interactions that regulate heroin withdrawal and future enhanced fear learning.

## *News, continued.*

Dr. Michael Hallquist, Associate Professor of Clinical and Quantitative Psychology, is the recipient of a 2020 National Institutes of Health R01 subcontract grant. The R01 provides support for health-related research and development based on the mission of the NIH. Dr. Hallquist received a total award of over \$260,000 over two years for his project with the University of Pittsburgh Medical Center, “Psychobiology of Suicidal Behavior in Borderline Personality Disorder.”

34 of our Psychology and Neuroscience undergraduates are Spring 2021 initiates of the Alpha of North Carolina Chapter of Phi Beta Kappa, one of the oldest and most distinguished of all collegiate honorary societies. Membership is a recognition of academic excellence achieved during the completion of a liberal arts and sciences college education. Congratulations to our Spring 2021 inductees: Gabrielle Adams, Kayla Baresich, Emily Barnard, Charlotte Burch, Katherine Collamore, Caroline Crater, Briana Destaffan, Monty Evans, Matthew Gibson, Mary Glennon, Alexandra Gray, Hunter Hoyle, Emily Huber, Camryn Kellogg, Emma Kitchens, Jennifer Kribbs, Maxwell Levinson, Samuel Li, Janegrace Lowther, Phillip Moseley, Kaitlin Nealon, Hannah Netschytailo, Gehao Pang, Camryn Petit, Alexander Pettus, Beatrice Russell, Sonam Shah, Benjamin Silver, Yolanda Simpson, Laura Sparling, Rachel Teran, Adam Ushpol, Avery Wall, and Drew Wheat!

Dr. Rachel Penton, Teaching Assistant Professor, was named a High-throughput Discovery Science & Inquiry-based Case Studies for Today’s Students (HITS) Case Fellow. The HITS network has the goal of training researchers and educators in data analysis and current trends in high-throughput (HT) experimentation and support the design and implementation of inquiry-based case studies using authentic HT data. Case fellows are trained in the use of case studies based on HT data in an annual workshop. The HITS workshop will provide training to fellows so they can work in groups to create case studies based on HT approaches, authentic big data sets and analysis tools, and integrate them into their classrooms.

Marketa Burnett, a graduate student in Developmental Psychology, is the recipient of a 2021 Ford Foundation Dissertation Fellowship. The Ford Foundation awards dissertation fellowships to individuals who have demonstrated superior academic achievement, are committed to research and teaching careers, show promise of future achievement, and are well prepared to use diversity as a resource to enrich the education of all students. Marketa’s dissertation explores the developmental processes that help shape Black girls’ STEM identity and persistence.

Two graduate students have received National Science Foundation Graduate Fellowship Awards. Congratulations to Danica Wilbanks, an incoming graduate student in Social Psychology, and Adrienne Bonar, a graduate student in Social Psychology! The NSF Graduate Research Fellowship recognizes outstanding graduate students in the STEM fields and NSF fellows receive three years of support from the agency and international research and professional development opportunities. Adrienne was selected for this fellowship to pursue her project titled, “Modeling the brain, body, and beliefs in emotion: an fMRI and peripheral physiological approach.” Congratulations to Danica and Adrienne!

## Hour of Action

The Hour of Action in Psychology and Neuroscience began in June 2020 on behalf of the Clinical Program's Diversity Training Committee and is meant to provide a communal space and resource list to channel our anti-racist and diversity/equity-oriented actions. Historically, HOAs have been Fridays from 4—5 PM, but we are shifting the meeting time effective Spring 2021 to **Fridays from 3—4 PM**.

You will no longer receive a weekly reminder email. Instead, please utilize a recurring Google [calendar link](#) that you can integrate into your existing weekly calendar. For Outlook users, a recurring Outlook event was emailed separately. The ongoing list of resources can be found in this [Google document](#). You will receive a monthly reminder of these events with relevant links going forward.

Students, faculty, and staff from across the Department are welcome to attend and we strongly encourage groups dedicated to DEI initiatives to bring their committee work/meetings to the HOA. [Zoom link here!](#)
