October 2021

Department News

Nicolas Murgueitio, a graduate student in Developmental Psychology, has been elected as Student Representative to the American Society for Nutrition (ASN)'s Global Nutrition Council. This council serves ASN members with basic and applied research interests in all aspects of human nutrition of relevance to both economically less-developed countries and to disadvantaged populations, and the translation of this knowledge into training, policies, and programs.

Dr. Sara Algae, Associate Professor of Social Psychology, is the recipient of a 2021 John Templeton Foundation grant. JTF invests in bold ideas from contrarian thinkers and funds innovative programs that engage the public in an effort to open minds, deepen understanding, and inspire curiosity. Dr. Algae received a total award of over \$1.6 million (over three years) for her project, "Validation and Unification of Love Measurement."

Dr. Shauna Cooper, Associate Professor of Developmental Psychology, is the 2021 recipient of the American Psychological Association (APA) Division 35's Foremothers Career Excellence in Mentoring Award. Division 35 members are actively involved in many diverse areas of interest within the psychology of women, whether in their teaching, research, practice, advocacy, or other activities. This award, sponsored by Division 35, either alone or with other groups, recognizes work relevant in some significant way to women's lives or to the psychological understanding of gender role influences on human behavior.

News, continued.

Dr. Paschal Sheeran, Professor of Social Psychology, is the recipient of a 2021 National Cancer Institute R01 grant. The R01 provides support for health-related research and development based on the mission of the National Institutes of Health. Dr. Sheeran received a total award of over \$960,000 (over three years) for his project, "State-of-the-Art Synthesis of Interventions to Promote Quit Intentions and Smoking Cessation."

Dr. Keith Payne, Professor of Social Psychology, and Dr. Patrick Curran, Professor of Quantitative Psychology, are the recipients of a 2021 National Science Foundation grant. The NSF funds research and education in most fields of science and engineering. Dr. Payne and Dr. Curran received a total award of over \$465,000 (over three years) for their project, "Implicit Bias: Separation Person and Context."

21 Psychology and Neuroscience undergraduates are the Fall 2021 initiates of the Alpha of North Carolina Chapter of Phi Beta Kappa. Phi Beta Kappa membership is a recognition of academic excellence achieved during the completion of a liberal arts and sciences undergraduate education. Congratulations to our Fall 2021 inductees: Charlotte Bassett, Larcie Britt, Brittany Brooks, Emily Carlson, William Davis, Sruthi Dontu, Hannah Evans, Benjamin Gorman, Peyton Kelly, Lauren Kornfeld, Christopher Lung, Maria Mazzolenis, Natalie Mcaleer, Paul Nodit, Alice Novinte, Benjamin Rees, Danielle Richmond, Ainsley Ruley, Hanna Seiders, Samit Thawani, and Caroline Vincent!

Congratulations to 2 Psychology and Neuroscience faculty members who are our 2021 recipients of the Stephenson and Lindquist awards! This award mechanism is a departmental funding award and its purpose is to support the research activities of our faculty. Dr. Monica Gaudier-Diaz, Teaching Assistant Professor, received \$2,000 to cover publication costs associated to the dissemination of novel teaching tools being used in her neuroscience courses, fund materials that will allow for more comprehensive course-based undergraduate research experiences, and support her professional development. Dr. Andrea Hussong, Professor of Clinical Psychology, received \$16,000 for her pilot study that aims to test the feasibility and preliminary effectiveness of virtual reality as a parent training tool for parents in recovery from opioid addiction.

Dr. Jennifer Arnold, Professor of Cognitive Psychology, has been named the inaugural President of the Society for Human Sentence Processing in 2021-22. The SHSP represents scholars dedicated to the study of language and cognition and grew out of the CUNY conference on Human Sentence Processing, which was held for the first time in 1988.

Dr. Margaret Sheridan, Associate Professor of Clinical Psychology and Developmental Psychology, has been named a 2021 Association for Psychological Science (APS) Fellow. Fellow status is awarded to APS members who have made sustained, outstanding contributions to the science of psychology in the areas of research, teaching, service, and/or application. Researchers who have an outstanding record of mentoring students from diverse backgrounds, working with research participants from diverse backgrounds, and making outstanding contributions to diversity and inclusion within the field qualify for consideration.

Early Childhood Depression

Duke University's Center for Child and Family Policy is hosting "Early Childhood Depression: What We Know and Where We're Going" featuring Dr. Michael Gaffey on November 10 from 3—4:30 pm. The event will be held on Zoom and also on-campus in Sandford 201.

Dr. Gaffey, Assistant Professor at Duke University, will share a rapidly growing body of data indicating that the origins of depression are developmental in nature and identifiable as early as the preschool period. He will discuss the presentation and developmental course of preschool depression, highlight novel neuroimaging findings informing the neurobiological correlates of early risk for depression in young children, and discuss recent work investigating early intervention for preschoolers with depression.

This event is part of the Early Childhood Initiative series which seeks to bring together scholars to address early childhood challenges and produce world-class scholarship. [Register for the event online.](#)

[Behavioral and Integrative Neuroscience Seminars](#)

Virtual, 12:30—1:45 pm
