

| First Name  | Last Name | Advisor                               | Project Name  |
|-------------|-----------|---------------------------------------|---|
| William     | Adair     | Sabrina Robertson                     | Applying a Growth Mindset Reflection Influences Students Research Related Skills  |
| Arthi       | Annadurai | Kurt Gray                             | Anticipating Democratic Backsliding: Moralization of Democracy Predicts Popular   |
| Sarah       | Barnes    | Keely Muscatell                       | Effects of Depressive Symptoms and Inflammation on Social Behavior  |
| Sarra       | Belhadj   | Kelly Giovanello                      | Blood oxygen level dependent functional magnetic resonance imaging of hippocampal subfields and cortical brain areas during cued recall associative             |
| Vanya       | Bhat      | Todd Cohen/Monica Gaudier-Diaz        | Examining the Effects of Environmental Toxins on Amyotrophic Lateral Sclerosis  |
| Kathryn     | Blair     | Deborah Tate/Deborah Jones/Lex Hurley | Examining effects of depressive symptoms on the adoption of positive eating behaviors, and their impacts on weight change                                       |
| Kayla       | Brown     | Margaret Sheridan                     | Assessing the Effects of Racial Microaggression and Structural Inequality on Overall Well-Being and Psychopathology among BIPOC Adolescents                     |
| Katherine   | Bullard   | David Penn/Brian Stiles               | Exploration of the therapeutic alliance-outcome relationship: Secondary analysis of the Integrated Coping Awareness Therapy (I-CAT) randomized controlled trial |
| Sarah       | Burton    | Cathi Propper                         | Investigating Prenatal Racial Stress, Maternal Pregnancy-Related Anxiety, and the Role of Social Support for Mothers of Color.                                  |
| Megan       | Dailey    | Jonathan Abramowitz/Brenna Maddox     | OCD and Autism: Clinician Perspectives  |
| Morgan      | Davis     | Shauna Cooper                         | Exploring the Relationship Between Antenatal Depression & Emergency Cesarean  |
| Emma        | Fagerberg | Cathi Propper/Kirsten McLaughlin      | Testing the Associations between Prenatal Stress, Prenatal Diet Quality, and Infant Temperament at 6 Months of Age  |
| Caroline    | Frisch    | Cathi Propper                         | Impact of Postpartum Factors and Continued Stressors on Toddler Behavioral  |
| Tiosa       | Iyamu     | Rachel Penton                         | Exploration of the Neurological Impacts of Ehrlichiosis and the Development of a  |
| Iris        | Kang      | Rebecca Stephens/Rosa Li              | Rethinking Language in a Tech World: Exploring Socioeconomic Status, Sleep, & Screen Time in Infant Language Development  |
| Kennedy     | Kreidell  | Eva Telzer/Natasha Duell              | Longitudinal associations among peer and family identity and susceptibility to peer   |
| Maxwell     | Levinson  | Regina Carelli                        | Optogenetic stimulation of the infralimbic to nucleus accumbens shell projection  |
| Tianyi      | Li        | Margaret Sheridan/Megan Davis         | Investigating the Impacts of Preschool Parenting on Adolescent Psychopathology: the Moderating Role of Early Adversity  |
| Christopher | Madden    | Kurt Gray                             | Religiosity, Moral Cognition, and Attitudes Toward Addiction  |
| Amrita      | Mani      | Kristen Lindquist/Adrienne Bonar      | Emotion as a Moderator Between Perceived Discrimination and Mental Health Outcomes  |
| Sabian      | Martinez  | Victoria Baxter/Monica Gaudier-Diaz   | Immunofluorescence Optimization to Co-localize Chikungunya Virus with Neurons, Astrocytes, and Oligodendrocytes in the Brains of Adult Mice                     |

|           |          |   |   |
|-----------|----------|---|---|
| Rachael   | Moldow   | Monica Gaudier-Diaz                                       | Attitudes Towards Antidepressant Medications Among Neuroscience Students  |
| Molly     | Mullane  | Andrea Hussong  | Examining the Effects of Prosocial Behavior and Beliefs about Social Media Authenticity on Online Social Justice Posting Behavior   |
| Taylor    | Murray   | Ryan Sheehy/Monica Gaudier-Diaz                           | Neurogenetic Effects of Pharmacological G9a Inhibition on Alzheimer's Disease in Early-Onset Alzheimer's Diseased Mice  |
| Rachel    | Niemira  | Jeffrey Greene/Rosa Li                                    | Engagement as a Mediator of the Relationship Between Motivation and Academic  |
| Florence  | Okoro    | Paschal Sheeran   | Mental Contrasting to Promote Health Behavior Change: Meta-Analysis of Behavioral Impact, Mechanisms, and Combined Effects with Implementation  |
| Jennifer  | Persia   | Jonathan Abramowitz                                       | Examining the Impacts of Subtle Fidget Jewelry on Anxiety, Stress, and Attention  |
| Elisabeth | Pitrolo  | Joyce Besheer/Ryan Tyler/Kathryn Reissner                 | Examining alcohol-induced neuronal activation using c-Fos IHC following TMT exposure in male and female rodents with a focus on the prelimbic and anterior                            |
| Melanie   | Semcesen | Patrick Harrison/Alexander Pomeroy/Lee Stoner/Chris Kline | A Meta-Analysis on the Relationship Between Sleep Quality and Arterial Stiffness  |
| Maya      | Tadross  | Desiree Griffin/Jon Abramowitz                            | TikTok and Obsessive-Compulsive Disorder: A Study of Social Media Content Quality   |
| Seth      | Tysor    | Christina Inscoe/Patrick Harrison                         | Carbon Nanotube Stationary Head CT Scanner Prototype Evaluation   |
| Avery     | White    | Barbara Frederickson/Catherine Berman                     | Mindful and Loving Resonance: Testing dose-response associations between duration (and frequency) of meditation practice and people's experiences of positivity resonance with others |
| Yicheng   | Zhou     | Pew-Thian Yap/Kelly Giovanello                            | Investigation of Learning-Based Tractography via TractSeg   |
