Dr. Jonathan Abramowitz

PSYC 990: Practicum (1-3)

Instructor: Varies

This course provides students with hands-on experience in an area of psychology and neuroscience relevant to the student's research interests through projects and work outside the University, such as an internship experience. The course exposes students to a different range of problems and application areas than they would encounter in the classroom, which is an essential part of their graduate study. The student is to be registered for the course while working.

PSYC 991: Advanced Research (3)

Instructor: Varies

Six laboratory hours a week.

PSYC 993: Master's Research and Thesis (3)

Instructor: Varies

PSYC 994: Doctoral Research and Dissertation (3)

Instructor: Varies
